

ATV / ROV SAFETY TIPS

(All-Terrain
Vehicles)

ATVs

(Recreational
Off-Highway Vehicles)

ROVs

- Always wear a DOT-compliant helmet and other protective gear such as eye protection, boots, gloves, long pants and long-sleeved shirts.
- Never have more passengers than there are seats. Most ATVs are designed for one rider, and ROVs should never have more passengers than there are seat belts.
- Do not drive ATVs or ROVs on paved surfaces. Ride on designated trails and at a safe speed.
- Get hands-on training from a qualified instructor. Visit ATVsafety.org to find a class near you.
- Fasten seat belts and keep all parts of your body inside an ROV. Children should not be passengers in a ROV unless their feet can reach the floor in a sitting position.
- Riders younger than 16 should only drive age-appropriate youth model ATVs, never adult models or ROVs.
